MAN LEFT GAGGED IN UNDERBRUSH

Search Institute for Gang
of Thugs Charged with
Assault.

Tyngsboro, Mass., Oct. 27.—A search was made in this and surrounding towns tonight for five men—one disguised as a woman—who set upon Charles W. Marinel, 21, bound, gagged and beat him and then left him in the underbrush near his home. The attack was the culmination of a week's persecution, said Marinel.

He stated that unknown men had attempted to rob his chicken house and he had fired upon them. Two nights later a shower of rocks were hurled at his house and several windows were broken. Sunday night he was assaulted outside his house. His mother heard his cries and fired six shots from a revolver into the air to arouse his neighborhood.

A searching party found Marinel helpless in some underbrush. Physicians fear that he cannot live.

The Rye state road will not be built this fall.

AMERICAN POLICY IS EXPECTED

Important Developments in Mexican Situation are Anxiously Awaited and the Initiative Will Come From United States

Reports from the British Foreign office that Great Britain would do nothing in the Mexican situation now that the election had been held in the southern republic, without consultation with the United States aroused interest in official circles here today, and added strength to the persistent intimations that the American government plans a note to the powers which may result in a concentrated Mexican policy for the future.

Secretary Bryan when shown dispatches from London which asserted that Great Britain's recognition of Provisional President Huerta was given to extend only until the elections, stated that such had been the understanding here all the time. When asked if a note were in preparation which would open the way for negotiations with foreign powers, he said no state-

(Continued on Page Two.)

THIS STATE HAS 6590 ON LIST

Pension Roll of the Country Is 820,200. One Fifth of Those Who Served in War.

The report of the commissioner of pensions, just made public shows that more than one fifth of the men who served in the United States army and navy during the Civil war were still on the pension pay roll at the beginning of the fiscal year. There are 820,200 pensioners on the roll, 503,633 of whom served in the army or navy during the Civil War. The total number on the pension roll is 10,000 less than the previous year. The loss by death, remarriage, children attaining the age of 16 years and from other causes amounted to 58,552, but there 12,276 original pensioners issued, and that cut the total reduction down to 46,000.

Besides the pensioners of the Civil War there are about 1,200 Mexican War pensioners and 1900 from the Indian wars. There are now no pensioners of the Revolution on the roll, the last survivor, Esther L. Damon of Vermont, having died in 1906, but the names of 139 widows of the war of 1812 remained on the roll at the beginning of the fiscal year in June.

During the fiscal year the pension bureau received 139,560 applications for pensions or increase of pensions. The appropriation for the past year was \$170,600,000 of which all, but approximately \$5,000,000 was expended. It was the first year that payments were made direct from the pension bureau at Washington instead of through agencies located in different sections of the country and the report states that the new method was found satisfactory. New Hampshire has 5,500 pensioners on the roll, receiving \$1302,884 for the fiscal year ending June 30, 1913. Ohio showed the largest figures, 77,509 pensioners, with Pennsylvania a close second with 15,618. Alaska has the smallest number, only 50 names appearing on the pension roll.

ON STAND FOR TWO DAYS MORE

Mrs. Eaton Shows Signs of Fatigue After Six Hours of Cross Examination--Repeatedly Contradicts Testimony of State Witnesses

Plymouth, Mass., Oct. 27.—The cross-examination of Mrs. Jennie May Eaton, who is on trial for her life charged with poisoning her husband, Rear Admiral Joseph Giles Eaton, was still uncompleted when court adjourned tonight. She had then been on the stand 12 hours, six hours under direct examination Saturday and six hours in the hands of District Attorney Barker today.

Her cross-examination will be continued tomorrow and indications were that she would be a witness at least another day, for at adjournment the district attorney had not questioned her at all regarding the death of Admiral Eaton or incidents surrounding it. The witness showed signs of fatigue, frequently resting her head on her hands. She answered questions readily, however, and several times the district attorney stopped her when she made her replies too extended.

TELEGRAPHERS IN STRIKING MOOD

Missouri, Kansas and Texas Railroad to Know Decision by Tonight.

Dallas, Tex., Oct. 27.—Strike of 1500 telegraphers of the Missouri, Kansas and Texas railroad system was threatened today when Manager W. A. Webb of the railroad refused to consider the telegraphers' demands until December 15th. The men's committee said the telegraphers would decide whether to strike within the next 24 hours. Mr. Webb told the men's committee it would be impossible to get the division superintendents together before December 15th for a conference over the demands. The men retorted that this delay was intended to give the railroad time to get rid of them non-employees now in its telegraphic service. The men demand a ten hour day, 20 per cent increase in wages, a six day working week, and Order of Railway Telegraphers' working rules.

UNITED STATES COURT IN SESSION

Many Cases are Scheduled for Trial and Term May Last Two Weeks

The October term of the United States district court for the district of New Hampshire opened her this morning with Judge Edgar N. Aldrich of Littleton, presiding. Court was called to order at 11 o'clock by U. S. Marshal Eugene P. Nute and the following jurors answered to their names when called by Clerk Boris B. Hodgman:

Frank H. Ayer, Nashua; Sullivan H. Baker, Hillsborough; Charles C. Burney, Canaan; Frank T. Bean, Concord; William M. Burbank, Webster; Herbert A. Blackstone, Laconia; Daniel Chesley, Durham; Charles N. Clough, Canterbury; Frank H. Colby, Manchester; William L. Condon, Portsmouth; Edgar Davidson, Lisbon; Frank W. Davison, Hanover; C. W. Durrall, Manchester; Nathaniel S. Drake, Salisbury; Edwin A. Dunbar, Manchester; G. B. Emmons, Concord; Frank H. Foster, Claremont; Edwin W. Farnum, Lebanon; Frank L. Foster, Manchester; Charles D. Foote, Seabrook; Alonzo M. Foss, Dover; Wilbur H. Gilman, Wolfeboro; C. S. Hadley, Manchester; Harry J. Holmes, Henniker; Orin D. Huse, Sunnyside; Hiram N. Johnson, Unity; William H. Kirkpatrick, Nashua; Fred W. London, Concord; Horace M. Lape, Hampton; E. W. Lewis, Manchester; William B. Lowe, Holderness; H. A. Marshall, Manchester; E. T. Parker, Manchester; James G. Rice, Contooscook; Charles B. Rogers, Pembroke; Jeremiah F. Sargent, Bow; George A. Tenney, Claremont; James Thompson, Hooksett; Milton B. Wadleigh, Sutter; Bryant W. Wallace, Nashua; Justin O. Wellman, New London; Daniel B. Weymouth, Concord; Solon S. Whitehead, Nashua; Edwin N. Whitney, Derry; John M. Bean, Belmont.

A jury was immediately impaneled to hear the action of the administrative of George Stanley of Concord vs. the Boston & Maine Railroad, an action to recover \$50,000 for loss of life. Stanley was a brakeman on a freight train and it is alleged that on April 20, 1912, while in the performance of his duties at Mystic Junction he was thrown from the top of a caboose by the sudden starting of the train and sustained a broken back. He lived until July 18, 1912. The trial is expected to occupy several days.

The cases assigned for trial at this session of the court are expected to occupy two weeks time.

WILL RELATE EXPERIENCE

Members of the Four Leaf Clover Club Will Tell How They Earned Dollar.

On Friday evening the Four Leaf Clover Club will hold a Halloween party in the vestry of the Court Street Christian Church. The feature of the party will be the "dollar raising" contest. Each member has pledged a dollar which will be earned in a novel way, and on Friday evening the dollars will be collected and each one will relate his or her experiences in obtaining this dollar.

Halloween games will be enjoyed.

Dorothy Deisher Knit Close Form Skirt

Deisher Knit Skirts are thoroughly well made in every detail, from fabric to finish.

Deisher Knit Skirts are made from the best yarn obtainable, which makes them excellent wearing garments.

Deisher Knit Skirts are built on the improved Deisher plan—with "Hip-Fit, Yoke and Gored Seams."

Made in gray and flesh color. Price 50c, 69c and \$1.00.

For sale at Muslin Underwear Department.

Our Department of Women's Outer Garments receive many compliments on the character as well as extent of assortments. These comments express how well we have fulfilled our aim to provide styles distinctive from those shown in such endless similarity elsewhere. We buy from all good makers, making selections that result in a charming diversity of designs—even on the plainer tailored styles we insist on a grade of workmanship that gives a decidedly superior effect.

Women's and Small Ladies' Coats \$10.00 to \$35.00.

Children's sizes, 6 to 14 years, \$3.50 to \$7.98.

HANDSOME SUITS FOR WOMEN—Here is such a collection as makes a representative exhibition of what American manufacturers have made this season in Suits for Women. The prices range from \$10.00 to \$30.00. Call and look them over.

RED FERN CUSTOMERS ARE PERMANENT CUSTOMERS.

GEO. B. FRENCH CO.

ODD LADIES INSTALLED

Interesting Session Held Monday Evening, Followed by a Banquet.

Star Lodge, No. 2, United Order of Independent Odd Ladies, met on Monday evening at K. G. B. hall at which time the installation of officers took place.

Right Worshipful Lady Governor Mrs. Nellie Hartford of Lowell, Mass., Right Worshipful Lady Conductor Mrs. Nellie Frost of Portland, installed the following newly elected officers:

Harriet F. Moore, W. P. L.; Mary A. Morrissey, W. N. L.; Bertha Nesbitt, Guardian; Sadie Cross, D. L.; Jennette Gray, chaplain; Sadie Jenkins, treasurer; Ida Blaisdell, secretary; Fanny Burrell, L. Rep.; Flora Woods, recording secretary; Annie B. Holt, Com.; Mrs. E. Foss, W. G. C.; Lettie Lydston, R. W. S. R.; Mal E. Gowen, R. W. J. R.

At the conclusion of the installation, a jewel was presented to Mrs. Moore by Mrs. Annie B. Holt and the purple regalia was presented to Lettie Lydston by Nellie Fletcher.

The ladies then adjourned to the National cafe where a banquet was served. Several guests were present from Dover.

SUPERIOR COURT.

Contested Will of Francis L. Beckman of Seabrook Being Heard.

In the superior court this morning a jury was empaneled to hear the contested will case of Francis L. Beckman of Seabrook. The action is brought by Alice M. Cope, of Haverhill, Mass., against John C. Evans of Salisbury, the executor, to test the validity of the will made by Beckman on Feb. 17, 1912. Eastman, Gardner and Scammon appear for the executor and Percy of Salem and Judge Shute of Exeter for the contestants.

TO MEET THIS EVENING

The Italian Club will meet at the Farragut school this evening. Mrs. Lucius H. Thayer will be in charge. There will be a social hour, and light refreshments will be served.

his friends and acquaintances join in extending their hearty congratulations.

There are at present thirty prisoners confined in the Rockingham County Jail in this city.

Grand Opening!

THE NEW DORE
CONFECTIONERY STORE AND ICE
CREAM PARLOR
will open on
Thursday, Oct. 30
37 Congress Street

The first customer will be presented with a \$5 gold piece. The public is cordially invited to visit the most up-to-date store in the city.

ROY J. VAROTSIS, Manager.

NAVY MAN TO MARRY.

Ensign Cobb of Kittery Will Wed in Maryland.

Cards are out announcing the coming wedding of a well known Kittery boy, Calvin Hayes Cobb, ensign U. S. Navy. The prospective bride is Miss Frances King, daughter of Mr. and Mrs. Reinhold Hahn of Hagerstown, Maryland, where the ceremony will take place at noon on Tuesday, Nov. 11. A reception will follow from 12.30 to 2.30 p. m. Ensign Cobb is at present attached to the battleship Minnesota and is much esteemed among his shipmates. In his home town and also in this city, where he is well known,

New Suits - New Coats Dresses - Dress Skirts Gloves - Corsets Handkerchiefs Umbrellas Hosiery - Underwear

EVERYTHING NEW TO FIT YOU OUT WITH.

L. E. Staples, Market St.

UNTIL NOV. 4 TO FILE BRIEF

Gov. Falker Gives Thaw's Counsel Until That Time and Orders Copy Sub- mitted to Jerome.

Rochester, Oct. 27.—In granting the request of Harry K. Thaw for a further continuance in his extradition proceedings, Governor Falker today set Nov. 4 as the date on which the Thaw attorneys must file their briefs bearing on the indictment returned by the New York county grand jury last week. A continuance of two weeks had been asked by the Matteawan fugitive.

The governor instructed Thaw's lawyers to submit on the same date to William Travers Jerome, special deputy attorney general of New York, a copy of the brief. Mr. Jerome will be allowed two days to make answer, if he desires.

Because of the governor's indisposition, the hearing was held in the common chamber of the city hall here, the home city of the executive, instead of at the state capital in Concord.

Nearly 2000 persons gathered about the doors of the city hall and as many as could force their way into the small council chamber which seats only 200, listened attentively to an interchange of personalities between Governor Falker and Mr. Jerome.

At the beginning of the hearing Mr. Jerome, in opposing the request for a continuance, said that if the good faith of the state of New York was called into question, as he believed it would be, he would not participate in the proceedings but would leave with the governor a certified copy of the indictment and his resignation papers for Thaw, and then depart.

He denounced Thaw bitterly, calling him a "degenerate human criminal." He charged that what he called "Thaw money" had attempted to bribe a grand juror, and two jurymen at the first murder trial, and had been successful in keeping out of the New York jurisdiction the proprietors of a questionable resort in New York city in order that she would not have to testify to Thaw's escapades at her home.

"Of course, Thaw's counsel from Governor Stone down," said Mr. Jerome, "wish to keep him in New Hampshire as long as possible, as long even as the Thaw open coal and coke mines hold out to him."

Thaw, who motored over from Concord with his guardians, stared hard at Jerome during the arraignment of himself. "The good faith of the state of New York is not questioned," said Governor Stone in reply, "but the good faith of some of its representatives is. The good faith of the 'found of the Rochester' is questioned."

Mr. Stone declared that the sentiment of the people of New York and New Hampshire was that Thaw had already been punished sufficiently and this caused much an outburst of cheers and applause that Governor Falker ordered the room cleared. However, the crowd was so big that the officers made no headway in their attempt to obey the governor, and the spectators remained to the end.

At the conclusion of the hearing Thaw was taken back to Concord by his custodian, Sheriff Drew and Deputy Sheriff Stevens.

KNOWS ENGINES BY THEIR SOUND

Denver Gatekeeper Can Tell When Train Is In Without Looking

People it has been said are known by their "smoke." In Denver it is a man who applies this test to the fourth class engine, to locomotives, the known then by the noisy puff of their smoke. The whistle, the bell, and the roll of the wheels play a part in the psychology of the train.

It is Charles Bourne who has been

gatemaster at the Union Depot since 1892. Mr. Bourne boasts that he knows every locomotive or switch engine which regularly passes through the depot yards, not merely by sight, but by sound.

"I can tell you the shape of the smokestack by just hearing the puff of the engine or the sound of the bell," said Mr. Bourne one night after a tour lay called into play the unusual powers of the gatemaster's ears by an inquiry regarding a train.

He was asked if the Union Pacific train due at that time had arrived. Mr. Bourne was engaged in conversation and had not glanced toward the tracks for many minutes. Trains jerked and noisy switch engines chugged by, but Mr. Bourne replied quickly:

"Yes on track 17."

The questioner looked puzzled and said:

"That train is all right but how did you know without looking to see?"

"It comes to be instinct with me to know the engine and the train by the roll of the wheels," said the veteran gatemaster. "Do you hear that bell?" he said as an engine puffed through the opposite side of the yards with several trains hiding it from view. "That is a Union Pacific switch engine. It is No. 1471. Why I know that bell like I know my wife's voice."—Evening

10 CENT "CASCARETS" IS YOUR LAXATIVE

Best Liver and Bowel Cleanser and
Stomach Regulator in the World
—Works While You Sleep

Get a 10-cent box.

Put aside just once—The Salts, Pills, Candy Oil or Purgative Waters which merely force a passage through the bowels but do not thoroughly cleanse, freedom and purity, these drainage organs and have an effect whatever on the liver and stomach.

Keep your "insides" pure and free with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all of the constipated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never grip, never, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have headache, biliousness, coated tongue, indigestion, sour stomach, or constipated bowels. Cascarets belong in every household. Children just love to take them.

HALLOWE'EEN, OCTOBER 31.

This is the night of Halloween. When at the witchlike night be among some of them black, some of them white.

Mr. Stone declared that the sentiment of the people of New York and New Hampshire was that Thaw had already been punished sufficiently and this caused much an outburst of cheers and applause that Governor Falker ordered the room cleared. However, the crowd was so big that the officers made no headway in their attempt to obey the governor, and the spectators remained to the end.

At the conclusion of the hearing Thaw was taken back to Concord by his custodian, Sheriff Drew and Deputy Sheriff Stevens.

People it has been said are known by their "smoke." In Denver it is a man who applies this test to the fourth class engine, to locomotives, the known then by the noisy puff of their smoke. The whistle, the bell, and the roll of the wheels play a part in the psychology of the train.

Captains of Prominent Football Elevens of the Middle West

Chicago, Oct. 28.—Coach A. A. Sturt of the University of Chicago eleven says his lucky center, Des Jardin, is one of the ablest linemen in the country, and he expects him to win a place on the All-American team. Des Jardin is captain of the Maroons. Captain A. Tanburg of the University of Wisconsin eleven is shilling in the backfield in his usually classy fashion. Tanburg is a swift, running fullback who has developed an effective style of shuffling off tacklers.

black cuts, and jack-o'-lanterns in every possible place. All these could be made of crepe paper. A pair of scissors and a little ingenuity in a farmhouse that has been known to work wonders at Halloween time.

Bobbing for Apples.

Probably the most common game in bobbing for apples, and the lots of fun as you all know. A Halloween that did not produce the good old tubful of bobbing apples, to be "bobbed" for, would not be worth while.

Snap Apple.

The object of this game is to take a bite out of a snapping apple, sometimes doughnuts are appended and see who can eat the quickest.

Crackers and Milk.

Milk and two girls or two boys. Then give each a bowl of milk and some crackers, and have them feed each other. This has been tried and was particularly amusing.

What the Future Holds.

An old practice was to tie a wedding ring or a plain gold ring to a silk thread and hold it suspended in a glass. The girl holding the string repeated the alphabet and whenever the ring struck the side of the glass, began the alphabet over again, and in that way tried to secure the initials of her life partner.

The girls in Scotland often had a cake made in which were baked a button, a ring, a thimble and a coin. When the cake was cut, each guest received a generous slice. She who found the thimble would be an old maid; he to whom the button came a bachelor; while the finder of the ring would be the first to wed; and the finder of the coin would never die poor.

Prize Contest.

An amusing contest is to have the girls and boys each try to thread a needle while sitting on a round bottle. This does not seem difficult, but try it.

Chestnut Fortunes.

Everyone knows how to tell chestnut fortunes. The principal signs are: If the chestnut burns up quickly, it is telling you that your life will be even and serene. If it splutters and flies away, you are to look for riches and splendor. If it roasts evenly and pops just enough to be done to a turn then it is the best of all.

The final test before supper may be a yarn test. Each girl answers should throw a ball of yarn out of a window, allowing it to unwind completely. When the end is reached, she should begin to rewind it, and when it catches (due of course to the intervention of some one of the boys on the ground beneath) she should call "Who hauls?" He calls out his name, and the two go to supper together.

A very informal "spread" should be furnished, consisting of chestnuts, cabbage and on cabbage leaves, sandwiches, tiny pumpkin pies, which might have a face outlined with currants, toasted marshmallows, popcorn and apples.

You will think of many other things as you work on the party. The secret of all the fun is to "keep something doing all the time."

For any itching skin trouble, piles, eczema, salt rhinoids, hives, itch, head, herpes, scabies, Doan's Ointment is highly recommended, 50c a box at all stores.

PARANAMATIC VIEW OF CRATER LAKE NATIONAL PARK

A striking panoramic view in six colors of Greater Lake National Park is the latest of the national park publications issued under the direction of Secretary Land. This view shows the park as it would appear to an observer flying over it, the ridges, peaks, and valleys being shaded and colored in order to show the relief. The panorama which may be purchased for 25 cents from the Superintendent of Documents, Government Printing Office, Washington, D. C., measures 18 1/2 by 18 inches, and has a horizontal scale of one mile to the inch.

SARETTE-DENONCOUR

The marriage of David Sarette, the well known pitcher of the Blues baseball team, to Miss Laura Denoncour took place on Monday at St. Michael's church, Exeter, the ceremony being performed by Rev. Patrick J. Scan. They were attended by the groom's brother Adolphe Sarette and the bride's sister, Miss Clara Denoncour.

AMERICAN POLICY IS EXPECTED

(Continued from Page 1.)

AMERICAN POLICY IS EXPECTED

ment or intimations along this line could be given at this time.

Opinions on Recognition Vary.

Some officials suggested today that the position of Great Britain with respect of recognition of the Mexican government in case the election for President had been declared void would be binding as it now exists. Should Huerta continue to be the head of the provisional government, it was argued, the recognition of Huerta would necessarily continue. Others maintained, however, that the recognition extended by Great Britain was intended to hold only until the time of the election last Sunday, no matter what might be the result. On this basis it was contended that Great Britain was not free to listen to any proposal that might be made by the United States for the formation of a general Mexican policy, which would also include the participation of other powers.

Await Official Returns

In the absence from Washington of President Wilson, nothing definite could be learned of the future plans of the government, but it was generally asserted that nothing would be done until there was official announcement from Mexico City on the outcome of Sunday's election.

Secretary Bryan stated tonight that no direct communication had been received as to the probable outcome of the election for President since the votes were cast. It was the general belief, however, in official circles, that the newly elected congress would be seated after some delay in announcing the final result, that the presidential election would be declared invalid and Huerta again chosen Provisional President. Whatever happens, the United States is bound by its declaration not to recognize the government as it will be constituted, and because of this situation, it is deemed certain that some initiative move on the part of this government must be forthcoming.

Important Developments Soon

Secretary Bryan plans to consult with President Wilson on the subject as soon as the latter returns from Mobile. The President's speeches of the last few days with relation to a general Latin-American policy, together with the comments of the British, press generally favorable to the American attitude in Mexico, gave rise to expectations of important developments before many more days.

Secretary Bryan said that the department had heard nothing of a report that the German government had dispatched other warships to Mexican waters. Most of the information to the department from Mexico during the day was routine. One dispatch dated October 25 stated that after three days fighting in Monterey, quiet had been restored and that the federalists at that time held the city. No Americans or other foreigners had been reported killed or injured.

That same night it was reported from Saltillo that communication had been cut off with Monterey.

JOHNSON'S ANODYNE LINIMENT

Countless thousands of families have found it to be the surest and quickest remedy for Cuts, Wounds, Sore Throat, Bowel Complaint—Internal and external ailments.

Important Developments Soon

Secretary Bryan plans to consult with President Wilson on the subject as soon as the latter returns from Mobile. The President's speeches of the last few days with relation to a general Latin-American policy, together with the comments of the British, press generally favorable to the American attitude in Mexico, gave rise to expectations of important developments before many more days.

Secretary Bryan said that the department had heard nothing of a report that the German government had dispatched other warships to Mexican waters. Most of the information to the department from Mexico during the day was routine. One dispatch dated October 25 stated that after three days fighting in Monterey, quiet had been restored and that the federalists at that time held the city. No Americans or other foreigners had been reported killed or injured.

That same night it was reported from Saltillo that communication had been cut off with Monterey.

JURY RETURNS A VERDICT
FOR THE DEFENDANT

Important Case of Beckley vs. Alexander Given to the Jury, Who Are Out Five Hours.

The jury in the case of Beckley vs. Alexander after being out nearly five hours on Monday, came in shortly before ten o'clock with a verdict for the defendant.

This case started last Wednesday morning and it has been a very interesting case. It was an action for damages brought by Dr. Beckley of Derry against Dr. Alexander of the same town for \$50,000 damage, for injuries resulting from a collision between his car and Dr. Alexander's automobile. Dr. Beckley's spine was affected and for a long time his legs were paralyzed and now one is still in that condition.

The defendant claimed that Dr. Beckley was a trespasser on Dr. Alex-

ander's private road, and that he was not run into by the auto but instead run into the automobile. There were a great many witnesses including a number of medical experts. The case was finished early Monday afternoon and the closing arguments were made by Attorney Gupitell for the defense and Attorney O'Neill for the plaintiff and after a lengthy charge by Judge Pike it was given to the jury at 5.30. They were ordered to return a sealed verdict. Judge Pike giving permission to counsel to open the verdict if they wished which they did.

Attorneys Crawford of Manchester, Page, Bartlett and Mitchell and E. L. Gupitell for the defense, O'Neill of Manchester for the plaintiff.

died at his residence on Pleasant street here yesterday afternoon, after a brief illness. He was the son of the late Horace A. and Sarah S. Brown and was born in Claremont, July 15, 1850. He was graduated from the Concord high school in June, 1868.

Mr. Brown was clerk of the superintendent of the Concord railroad until March 1, 1883, when he was appointed general ticket agent, with offices in Concord. At the consolidation of the Concord and the Boston, Concord & Montreal roads under the name of the Concord & Montreal Railroad he was appointed general passenger and ticket agent. When the road was leased to the Boston & Maine he was appointed assistant general passenger and ticket agent with an office in Concord, where he remained until Oct. 24, 1910. Then Pres. McEllen made him first assistant general passenger agent, the duties of which office kept him in Boston though he retained his residence here. He was identified for many years with the Mt. Washington Railway.

Next to railroading, Mr. Brown's hobby was music and some of his works have been widely published. He brought up in the Episcopal faith he served for many years as organist at St. Paul's Church. Later he served as organist and choir director at the First Baptist Church.

Mr. Brown was a Republican and had served his ward in the state legislature. He was a member of Blazing Star Lodge, A. P. & A. M., of the Woonsocket Club and of other social organizations. He was twice married, first to Evelyn Hazen, who died in 1888, then to Annie Baker Dietrich, who survives. Two sons by the first wife, Frank W. Brown and Charles Walker Brown also survive.

BREAKS A BAD COLD
IN A JIFFY! TRY IT

"Pape's Cold Compound" Ends Colds
and Grippe in a Few Hours—Don't
Stay Stuffed Up

You can end grippe and break up a cold either in the head, chest, back, or limbs by taking a dose of Pape's Cold Compound, every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffing! Use your throbbing head—nothing else in the world gives such prompt relief as Pape's Cold Compound, which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.

ARGUE DYNAMITE APPEALS

Chicago, Oct. 27.—The appeals of 30 of the 33 labor union officials, convicted in Indianapolis last December, of conspiracy and complicity in the McNamara dynamiting plots will be argued before the United States Circuit Court of Appeals here, for three days beginning next Wednesday. At the head of the list of convicted dynamiters who were released on bond in the Federal prison at Leavenworth, Kas., and who are seeking reversal of their sentences are Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers, Olat Twyman, San Francisco; John T. Butler, Buffalo; Michael J. Young, Boston; Philip A. Conlay, New Orleans; and Frank C. Webb, New York.

These and the other applicants were found guilty, first of conspiracy and second of illegally transporting explosives. Counsel for the men headed by Chester H. Krum, St. Louis, and Elijah N. Zolner, Chicago, announced today the basis for the appeal. It will be that there is no such Federal offense as a conspiracy upon which the convictions were based, and that the Government afforded no proof of any such conspiracy. The Government, already has filed an argument against a new trial, what is said to be the longest brief of its kind ever prepared. United States Attorney Charles W. Miller of Indiana, will have charge of the Government's case.

NO POLITICS TO BE
ALLOWED IN STEAMBOAT
INSPECTION SERVICE

Department of Commerce, Office of the Secretary, Washington, September 27, 1913.

My dear Congressman:

You were kind enough to ask for my views concerning changes in the Supervising Inspectors of the Steamboat Inspection Service. I am glad to give them herewith.

In the Commencer of August, 1913, appears a statement prepared by me, at their request, concerning the Department of Commerce, from which I quote:

"The Steamboat Inspection Service which has for its prime duty the caring for the safety of passengers on our rivers, lakes and harbors and seas, will be kept free from all questions of partisan politics. It is not and cannot be a political service. It is a human one. It has under its care women and children often in conditions in which they are helpless to care for themselves. Honor does not permit allowing to enter this service any considerations save those of loyalty, faithful, firm, strong and kindly enforcement of the law provided for the safety of the people. Everything that can be done to increase the efficiency and certainty of this service will be done. Nothing that seems likely to decrease its efficiency, to open the door to pressure or temptation, or to weaken the safeguards thrown around the innocent by law will be willingly permitted."

The above expresses my views and I have no doubt that public opinion would sustain them.

There is no feature of the work of the Department of Commerce on which public opinion is more alive and keen than on the subject of the Steamboat Inspection Service. Let a small vessel upset in the Connecticut River, forthwith the Springfield Republican prints an editorial about the Service. Let a steamboat spring a leak in Long Island Sound, at once the New York Times comments editorially. Those who recall, as I do, the Stocum disaster, causing the loss of hundreds of lives, would have small patience with any course that would tend to make less efficient the Service that is intended to prevent such disasters.

Not only honor, therefore, but the weight of an aroused public opinion requires that the Steamboat Inspection Service should be run on the basis of ascertained efficiency. It has no political function. Its sole duty

is to enforce the law and this it should do without being tempted by political partisanship or personal partiality. If the Supervising Inspectors of this service owed their positions in any degree to political influence they would not be as free as they ought to enforce the law in cases where they might feel their political friends or sponsors were interested. In this connection it is interesting and carries a point of warning to observe that much political pressure against inspectors whose removal has been sought seems to have origin with those who have either been negligent or against whom the law has been enforced.

Practically, therefore, this course seems wise: Where I find an officer of the Service who has been loyal, considerate, firm, and efficient and who has the requisite knowledge, experience, and character, I intend to retain him irrespective of his views on subjects of national politics. If, on the other hand, an officer of the Steamboat Inspection Service is negligent, or incompetent, disloyal or lacking in equipment for his work, or heedless of his sacred and solemn duty for the protection of life, or so regardless of his position as a national officer as to take an aggressive part in partisan politics I shall endeavor to replace such an officer with a Democrat who has the requisite qualifications.

I am glad to say that a policy similar to that suggested has heretofore, in some measure, prevailed. The Supervising Inspectors in New York and in Pittsburgh are both Democrats and the Supervising Inspector in Cleveland has the endorsement of the Democratic Mayor and Congressman from that city and many others. It does not seem to me wise political judgment to lower the standards set by our political adversaries. I prefer, so far as I can, to advance them.

I ought to add that any definite criticisms of the Service or any of its officers that looks toward the improvement of its work will be welcomed and shall have my personal care.

There is no objection on my part to your making this letter public, if you so desire.

I beg to remain,
Yours truly,
(Signed) William C. Redfield,
Secretary.

Hon. Charles Leff, House of Representatives, Washington, D. C.

way by that time and other Congressional business does not hold him in Washington. The manoeuvres at Culebra will give the navy, especially the marines, an opportunity to learn how to take possession of this island, which is regarded as the best advance base for the fleet in case of war with a European Power, from the point of view of protecting the Atlantic coast of the United States and the Atlantic entrance to the Panama Canal. The marines will land on the island with emergency defence guns, torpedoes, mines, searchlights, etc., to hold the base against a foreign foe until the battleship fleet and the army arrive.

ENGLAND WILL KEEP
AWAY FROM MEXICO

London, Oct. 27.—Before taking any further steps in regard to Mexico England intends to await the results of the elections in that country, of which nothing has yet been heard officially, and also information as to the policy of the United States. At any rate, the Associated Press was informed at the Foreign Office today, nothing will be done without consultation with the United States. President Wilson is expected to communicate with Sir Edward Grey, the British foreign secretary, as soon as he determines upon his line of action, and as the recognition of Provisional President Huerta by Great Britain hinges only until the election has been concluded she will then be free to consider any proposals emanating from the United States, with which she desires to work in harmony. Despite reports to the contrary England has not initiated nor participated in any exchange of views between the European Powers in regard to Mexico.

Wilson Ideals Too High.

The Times, in an editorial this morning protesting against the sensational attempts on both sides of the Atlantic to represent the relations between England and the United States as strained, pays a tribute to Woodrow Wilson's Swarthmore speech as showing by what very high ideals the President's view is supported.

"We do not question the elevation or sincerity of those sentiments," adds the Times, "but we do question how far they may be practical politics. If the United States Government has a practical plan for realizing the immediate benefits which we and they agree Mexico requires, we shall be ready to give it our best friendly consideration, but to speak frankly we do not believe it possible to establish a Government in Mexico which will realize even roughly President Wilson's ideals."

Recognition Only Till Elections.

The Daily Telegraph in a special article on the Mexican situation, argues that Great Britain recognized President Huerta only for a limited period, which terminated, with yesterday's elections. The diplomatic state, says the paper, is now clean and it cannot be too strongly insisted that any refusal of General Huerta to respect his undertaking not to accept the presidency, on any violence towards prisoners, would create a situation entitling Great Britain to reconsider her recognition.

Daniels Garden Interview Influence.

The claim is set forth in the article that the writer has the highest sanction for denying that Minister Daniels' interview with President Huerta had any bearing upon the strained relations between Mexico and the United States. It further states that Sir Edward Grey had taken Ambassador Page fully into his confidence, that the most pleasant relations exist between the American ambassador and the British Foreign Office and that whatever action may seem necessary after the elections, the same frank and friendly correspondence will continue. Great Britain will observe fire neutrality and will not interfere unless some arrangement for joint political action can be made or unless the United States suggests its inability to deal in a military way with its turbulent neighbor.

"Dr. Thomas' Selective Olf is the best remedy for that often fatal disease—croup. It has been used with success in our family for eight years."—Mrs. J. Whiteacre, Buffalo, N. Y.

CIVIC CLUB HOLD
INTERESTING MEETING

The first of a series of meetings of the Portsmouth Civic Club was held on Monday afternoon at the home of Mrs. Mary J. Wood on South Street, and there was a large attendance of ladies, who are interested in the work being carried on by the society.

Mrs. James W. Remick of Concord, Secretary of the New Hampshire Charities and Corrections, gave a very interesting talk on some of the legislative measures which were introduced at the last legislature, some of which became law and others which failed. The state work house bill was defeated much to the regret of all social workers, for this would provide a place where jail offenders would be kept at work during the term they have to serve instead of lying in lunatic asylums.

Miss Bash, the social worker of this city also made a short address.

There was a general discussion on the new laws and the coming city election was also discussed at some length.

The club have planned a number of interesting meetings for the winter months.

Editorial.....28 | Business.....37

Portsmouth, N. H., Tuesday, October 28, 1913.

Plan to Make Church Campaign.

Last year over 60,000 churches gave attention to the subject of tuberculosis on Tuberculosis day. It is hoped this year to increase the number to 100,000 and to urge similar action besides in a large number of the schools and other societies. The tuberculosis day campaign will come this year during the Red Cross seal sale. It is planned to urge the churches of the country to take a definite part in this movement. The observance of Tuberculosis day was endorsed last year by President Taft, Cardinal Parley, Col. Roosevelt and many other prominent churchmen and public officials. Proclamations calling upon the people to observe this day was issued by governors of more than a dozen states and by the mayors of a considerable number of cities.

License the Cat!

Some months ago we referred to the desirability of licensing cats as well as dogs. While the suggestion was not seriously intended, we think there may be some virtue in the proposition. It is not intended to deprive the good old house cat of any of his or her rights, but something should be done to guard the public against the detestable stray cat that carries disease and menaces public health. It is known that children have contracted disease, including infantile paralysis, through handling stray kittens. It is natural for a child to pick up a domestic animal or pet, but it is a dangerous thing to allow some of these animals to roam at large.—Wakefield Item.

Carry a Ray of Sunshine With You.

Be sure to visit the sick, but above all things, do not crowd in on Sunday. The sick are often neglected during the week, only to be visited to death on Sunday. Unless when you visit the sick you carry with you joy, hope and mirth, you had better stay away. An unfavorable opinion should never find expression in the sick room. Life hangs on a brittle thread. And often that frail support is hope. Never utter such an expression as, "How bad you look" or "I would have another doctor," etc. Make this your rule, never to enter a sick room without carrying with you a ray of sunshine. A kind word and a pleasant smile should be ready for everyone.

Not an Irreligious Nation.

For every regular attendant at church services it is probably true there is another citizen of this country who does not go regularly to church but who has an idea that he will go some day and that he really is a member of some church, however much of a backslider he may be. No, America is certainly not an irreligious nation, though the appearance of things at times may give that impression to superficial observers.—Lawrence Telegram.

The Old Style Is Still the Best.

A brother editor says, and you know editors always tell the truth, that a 16-year-old schoolgirl who goes out on the street at night with a slit skirt is one who is apt to need watching, especially if her mother is not by her side. Such girls used to be sent to bed at eight o'clock, and whatever we may think of the old style of conduct, in this respect the old style is the best still.

The Cause for So Much Rain.

It is hinted that the continuous rain this month has been caused by the tears from the dear people suffering with political hysteria in the Bay State over Foss' advent into the ring for a re-election. If that is true in this section, New York is likely to suffer from a flood before Sulzer reaches his level.

One Guess as Good as Another.

Things politically in New York state and Massachusetts are in a condition that makes one guess as good as another as to the result. The people of New York state will have to wake up before many years or they will discover that a receivership will be their only escape.

The Home Fleets Are Ample.

"Uncle Sam" has just started a fleet of battleships on a foreign cruise just to let the world know that any trouble with Mexico can be handled with one or two of our reserve fleets.

Latest Photo From Panama Canal; Boat Going Through Miraflores Locks.

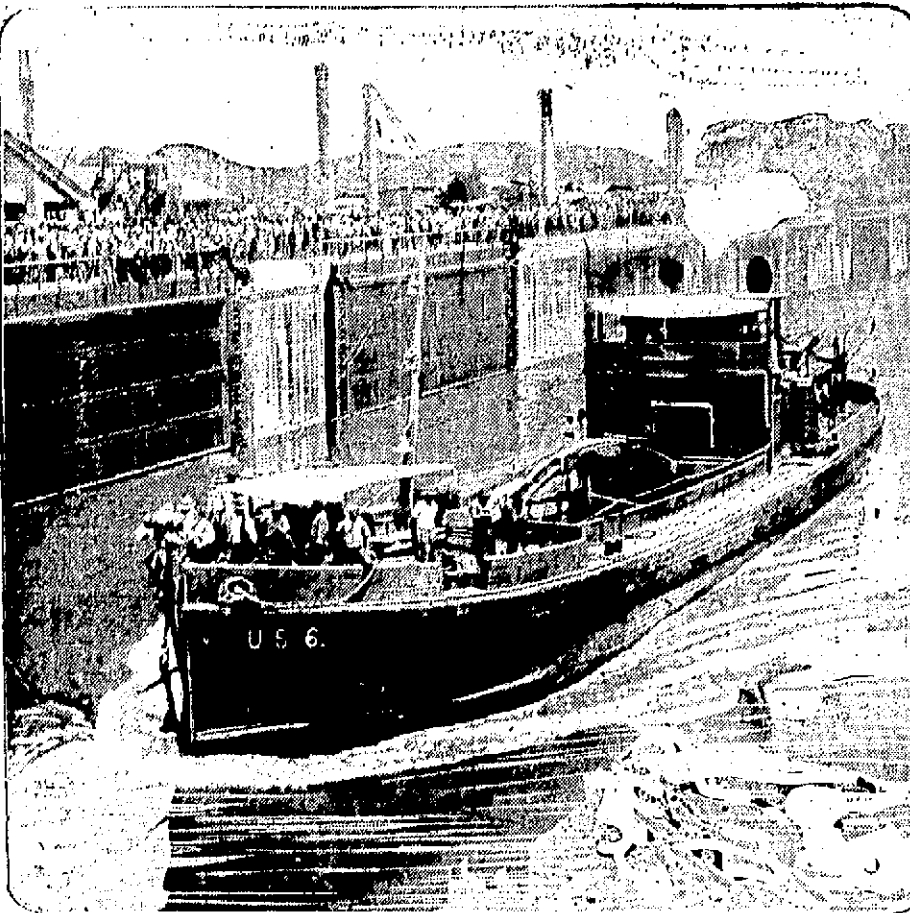

Photo copyright, 1913, by American Press Association.

Navigation is now going on regularly between the Pacific entrance to the Panama canal and the Culebra cut, through the Miraflores locks. This picture shows a United States construction boat making the trip to aid in removing the obstruction created by a recent slide in the cut.

ON STAND FOR TWO DAYS MORE

(Continued from Page 1.)

Much of the examination today had to do with the numerous letters written by the defendant. Regarding one of these written in 1905, the witness said:

Brain Full of Drugs.

"The admiral's brain was full of drugs. He was almost childish at times and should have been operated upon. If he had been, he would be alive today."

Mrs. Eaton repeatedly contradicted testimony given by witnesses for the prosecution, including that of her daughter Dorothy, who had said that her mother gave the admiral medicine in his tea and other beverages. Mrs. Eaton admitted that she had bought this medicine on two occasions. Once she said she told the admiral about it and then gave it to him with his full knowledge, but the other time she did not use it at all.

"I never could have deceived Admiral Eaton, so expert was he in medicine that he would have detected it immediately," she said.

Some of the medicine that she got for the admiral he liked so well that he "ate it like peppermint," she declared. Explaining a phrase in one of her letters which referred to the "rationalness of the navy," Mrs. Eaton said she believed the admiral's mental condition was due in a large measure to his life abroad while in the navy.

Very Fond of the Admiral.

"I was very, very fond of the admiral, and pitied him deeply," she replied when asked regarding testimony that she had endeavored to have Eaton put away. She explained that she merely wanted to have him put in a sanatorium for three or six months as she believed it would cure him.

"Did you ever see the admiral use drugs?" she was asked.

"Yes, dozens of times," was the reply. "He would eat it from the palm of his hand and almost immediately his eyes would get red and become glassy and he would appear as though intoxicated."

Admiral Eaton was ashamed of his drug habit, the witness said, and often she had known him to sprinkle whiskey on his coat and even on his mustache in order to give the impression that liquor was responsible for his condition.

Regarding letters in which she had said that the admiral winked at other women, the witness asserted that she was positive of these facts.

Gave Publicity to Baby's Death.

After letter to Grace B. Howard of New Bedford, previously introduced, in which she asked the recipient to testify that the admiral winked at her, was written, Mrs. Eaton said, because she was afraid that the admiral would try to stifle the death of their adopted child on her or her daughter Jane. She gave publicity to the baby's death, she said, "to save any more lives that might live around him."

A new episode, not previously referred to, was introduced by the government during the cross-examination. It was addressed to a neighbor of the Eatons, and although it bore no signature, Mrs. Eaton admitted at once that she had

written it. She described the admiral as having a tumor on the brain and said that he was normal only part of the time.

Going into details regarding neighborhood gossip, she said:

"I came from an exclusive family and I cannot understand all this gossip. I sit and gossyp at the dowdiness of New England women. Southern women would be clever enough to know which of two parties was short of brains."

Mrs. Eaton's testimony appeared dramatic to the members of the jury and at times some of them appeared to doubt. She maintained her smiling countenance throughout the ordeal, the judge often breaking when the district attorney, unable to read her writing, passed a letter over to her to decipher.

IN THE LITERARY WORLD

The November "Century."

The case for the feminists is stated sympathetically and sanely by Edna Kenton in "The Militant Women—and Women" in the November Century. Miss Kenton shows the British militant disturbance to be but a small part of the great feminist movement.

This issue of The Century might be called a round-the-world number, so much ground is covered by the various articles, stories, poems and illustrations. The scenes of the anonymous novel, "Home," the second quarter of which appears in this number, are for the most part in South America. An imaginative story by Stephen French Whitman, "The Woman from Yander," is told of a scientist who meets a marvelous woman in the Alps. Frances Hodgson Burnett, L. Frank Taylor, G. K. Chesterton and Jacob A. Riis are among the contributors.

"The Economic Consequences of Immigration" is the title of a paper by Prof. Edward A. Ross, of the University of Wisconsin, on perhaps the greatest problem still unsolved by the United States.

The illustrations in this number—some of them reproduced in full color—are unusually profuse, and include the work of P. Luis Mora, Reginald Birch, N. C. Wyeth and Charles Livingston Bull, and etchings by Everett L. Warner. The department, "In Lighter Vein," continues to be a brilliant little comic magazine in itself.

WOMAN SQUATTER CLAIMS MILLION

Lived 37 Years in Tiny Home on Lake Michigan Beach.

Chicago, Oct. 27.—Thirty-seven years ago a young woman set up a squatter's home on the shifting sands along Lake Michigan at the point where now is located Gary, Ind. During the years the woman has made her living by catching fish and serving fish dinners to travelers on the beach of Lake Michigan, near what is now Gary.

The woman is Miss Drusilla Carr. She may get a million dollars for there will come up for trial at Michigan City, a case appealing a recent decision granting to her title to land worth more than half a million dollars. If the decision is favorable to her, then other land which she claims will legally belong to her. If the decision is against her she will continue selling fish dinners at her tiny home at the lake's edge.

The Lake county court granted title to \$500,000 worth of land to Miss Carr, but on appeal the supreme court re-

manded her case to the La Porte county court for trial.

The defendants are Mrs. Jessie Phillips, wife of a judge in the New York supreme court; Mrs. Nettie Tyler of Washington, whose husband is a descendant of President Tyler, and Miss Daisy Holliday of Washington. All are heirs of William Holliday, who bought the land from the Ewing brothers, Indiana traders, in 1836, for \$12.

Miss Carr bases her claim to the land on the allegation that it was a gift from a man named Brigham, now dead.

SLINGSBY EVIDENCE FOR GRAND JURY

San Francisco, Oct. 27.—So wide has been the disparity in the testimony taken before the British vice-consul sitting as a commissioner of the high court of chancery in the Slingsby case that Dist. Atty. McKel today called a special meeting of the grand jury to determine if possible who of the witnesses heard had committed perjury.

The high court is endeavoring to determine whether or not Capt. Charles Baggett Raymond Slingsby, formerly of His Majesty's Navy, and his wife are the parents of the child which they acknowledge as their son. On the outcome hinges the ultimate inheritance of an estate yielding an annual income of between \$40,000 and \$50,000.

All the witnesses who have testified were summoned to appear before the grand jury, including Mr. and Mrs. Slingsby.

CUBA TO ASK TREATY CHANGE

Havana, Oct. 27.—Col. de la Torre, Cuban secretary of state, and Dr. Pablo Desceraine, minister to the United States, today were preparing to leave for Washington on a special mission.

They were appointed by President Menocal, ostensibly to repay the visit of former Secretary of State Knox to Cuba, but their real mission is to attempt to gain the consent of the U. S. to such alterations of the reciprocity treaty between the countries as will enable Cuba to make up the financial deficit created by the free listing of sugar for the Underwood-Simmons tariff. President Menocal desires that the United States agree to a change of the agreement on tobacco that will give Cuba greater benefit.

"GILDED CAGE" WIFE ATTEMPTS SUICIDE

New York, Oct. 2.—Mrs. Margaret Powers, 24 years old, attempted to end her life early today by shooting herself in the breast, and when asked for a reason replied:

"I have been only a bird in a gilded cage."

Arthur Powers, the wounded woman's husband, is connected with an automobile concern here. Mrs. Powers never lost consciousness after firing the shot and said her husband was kept away from home so much that last night was the first time he had had a chance to take her out to dinner for a year. Mrs. Powers wore a diamond ring and said she had plenty of money and every luxury but was tired of being a prisoner within her walls. When told that she would recover, Mrs. Powers said she was sorry.

FREE DEBATE AND PROGRESSIVE MEETING

Tuesday night at U. V. U., 11th Business meeting at 7:30 p. m. Debate at 8 p. m. All are welcome.

CURRENT OPINION

BIG MEN AND BIG MOUTHS

There never was a time when men of ability and integrity were in greater demand than they are today. As business has become big it has had a call for big men and for young men who have the foundations for expansion.

Salaries for big business men, distinguished for industry and honesty, were never larger, in this or any other country. The demand for masterful men exceeds the supply.

Nor was there ever a time when more little men thought they were big than now, never a time when the little man with a big mouth could make more of a disturbance than today.

It is the big mouth not the big brain that catches and holds the crowd. The big mouth is framing legislation, grabbing fat offices, challenging established customs, questioning the wisdom of the founders of the republic and impugning the integrity of all who have the courage to resist the advancing tide of unreason, unrest and destruction.

How long the big mouths will be the vogue, heaven only knows. But it dominates in politics and in legislation. It obtrudes upon every effort for reform and, worst of all, it deludes a lot of credulous people into the belief that sound is better than sense, and noise superior to wisdom.

They had the big mouths in scriptural days. They were described by a veracious chronicler of a period resembling our own in many respects. The chronicler said: "But all their works they do for to be seen of men: they make broad their phylacteries and enlarge the borders of their garments. They love the uppermost rooms at feasts, and the chief seats in the synagogues. Yeven ye also outwardly appear righteous unto men, but within ye are full of hypocrisy and iniquity."

Let the people rule!—John A. Sletcher, in Leslie's Weekly.

A LOOK AHEAD

She had captured the ballot at last. And the militant Damsel fair, But when the votes were about to be cast Was the feminine suffragist there? Nay; she stayed in her shut. Softly weeping: "This hat Is a thing that's too ancient to wear!"

"I am free!" was the cry of the dame, And her husband said: "Isn't it fine?" So she asked for a fifty cent same To be paid for a bonnet divine. But he hadn't the coin, So his wife couldn't join In the feminine balloting line.

"Oh, our yoke has been lifted in truth! 'Twas the woman reformer who spoke; But she didn't appear at a booth. And we learned from her family folk

That she stayed in the house Just because her new blouse Was a very bad fit to the yoke.

"I will strike for the life of my sex! Said the spinster with optics aglow; But she didn't appear with her specs In the waiting electorate row. She had strayed from the polls 'Cause her toothless sales Were a trifle too big at one tow.

"At the polls I'd be glad to appear, Said the woman as red as a rose; But the truth of the matter is clear— I've forgotten to powder my nose; And I'll also adduce As an extra excuse There's the finest hole in my hose.

Mr. Anti, your victory's plain At the balloting time in the town; Do not order your wife to refrain; Do not turn her most cruelly down. You may keep her with grace From the balloting place By refusing to buy a new gown. —John O'Keefe in New York World.

OCTOBER

So blessings, unto life, unfading brief, Promise, again the seasons, coming leaf, Leaving the grapes, the golden fruits our way; October passes through the autumn day.

R. M. C. R.

How Newspapers Can Aid Advertisers.

A former advertising manager of one of the largest drug concerns in the United States, in a forceful speech before a New York Club, said newspapers were in a position to render advertisers valuable cooperation.

It was his experience that his salesmen were not able, generally speaking to report conditions in local fields as they should be reported. The editor of the local paper, he maintained, was best qualified to supply national advertisers with reliable information concerning his particular locality. This is a subject worth thoughtful consideration by publishers generally, and it should also bring to the mind of the national advertiser the universal usefulness of the daily newspaper—the one medium of communication with everyone, everywhere.

CLOSES CASE AGAINST MURET

New York, Oct. 27.—The government closed its case today at the trial of Ernest A. Muret alleged dentist and friend of Hans Schmidt, confessed murderer of Anna Ammiller on the charge of counterfeiting.

The testimony today alleged that Muret and the priest first tried to earn a living by making picture post cards. When they failed at this, it was said Schmidt suggested that they use their knowledge of plate making to manufacture bogus money. Records of Muret's first interviews with detectives showed that he insisted that Schmidt had taken the lead in all their undertakings.

The Herald is increasing daily in popularity with the reading public.

TRAINMEN KILLED AS BRIDGE FALLS

Island Falls, N. Y., Oct. 27.—Fireman Fay Arbor of Bridgeville was killed today when the trolley and four cars of a south-bound freight train on the Bangor & Arrowsbrook railroad crashed through the bridge over Fish Brook. The locomotive passed over the weak spot in the bridge and remained on the rails so that Engineer P. F. Jenkins

was not injured. A section drew up the bridge, declared they had displayed danger signals.

"Per O' My Heart," Thursday evening at the Portsmouth Theatre. Tickets on sale Tuesday morning.

Now is the time to have your house cleaned by the vacuum process. Drop a card to P. A. Robbins, Elliot, Me. Tel. 308-22.

NEW YORK MAIL DRIVERS STRIKE

Seventy Chauffeurs Quit
Work Without Warning,
Tying up Service.

New York, Oct. 27.—Seventy chauffeurs employed to transport United States mail on motor trucks went on strike, without warning tonight. The entire lower section of Manhattan Island south of 46th street is affected. This district includes the general post-office and the branches at the big terminals and steamship piers.

The men are employed by the Postal Transfer Service company, which has the contract to carry the mail. John Masten, superintendent, said the men struck because their union had not been recognized. The company's contract with the government forbids this, Masten said.

The drivers in discussing the strike complained of the schedule of their runs. They were compelled, they said, to drive through the streets at a high rate of speed in order to "make" trains and boats. They said they understood that Police Commissioner Waldo, as a result of recent accidents, had instructed his men to arrest the mail-automobile drivers if found speeding.

A few hours before the men struck Mayor Kline recommended to the board of aldermen the wisdom of passing a city ordinance regulating the speed of mail trucks. Eight persons have been killed by these vehicles this year.

By midnight the number of strikers had increased to 125. One thousand sacks of mail matter of all classes was piled high at the general post-office. About half of the usual number of trucks were in use. Patrolmen and federal secret service men rode as guards on each wagon. A number of police have been ordered to report for strike duty. One striker had been arrested, charged with disorderly conduct.

KITTERY POINT

What Is Happening in the
Harbor Town.

Mr. and Mrs. George Stevens of East Haverhill, Vt., are visiting their son, William, agent K. E. Stevens.

The Christian Endeavor Prayer meeting will be held in the First Christian church, at 7.30 on Tuesday evening. Topic, "Missionary Essentials, Home and Abroad."

Prayer meeting will be held in the vestry of the Baptist church on Tuesday evening at 7.30.

The Community House will be open on Thursday evening.

Schooner Dorothy Palmer, from Norfolk, Va.

Schooner Priscilla, British, Boston for St. John, N. B.

Charles H. Klineck, Philadelphia for São, Mo.

Schooner Longfellow, Richmond, Me. for New York.

Schooner Charles H. Trickey, Augusta, Me., for Fall River, Mass.

Schooner Sarah L. Davis, Boston for Rockland, Me.

Schooner M. D. Grossey, in tow of tug Piscataqua for Bath, Me., for repairs.

The tug Mitchell Davis started for Boston Monday morning towing the water logged three masted schooner, John A. Beckerman, but soon returned with her condition not being favorable for the trip with a craft whose hull is almost entirely submerged.

Miss Vela Mace is visiting relatives in Portland, Me.

Mark Bray of York passed Sunday with his mother, Mrs. Catherine Bray.

Harold Grace of Portsmouth passed Sunday with relatives in town.

Miss Eleanor Johnson is the guest of relatives in South Berwick.

Mr. and Mrs. Thomas Walsh have returned to their home in Boston after

visiting Mr. and Mrs. Noah E. Emery. Clifford Bryant of Boston passed the week end with his mother, Mrs. James Coleman.

Ralph Baker passed Sunday in Portland.

Charles Bedell was operated on for appendicitis at the Portsmouth Hospital on Monday.

Mrs. Albert Fernald of Portsmouth returned to her home on Monday after visiting relatives in town.

Leslie T. Bickford of Kittery was a visitor in town on Sunday.

Mrs. Frank Raynes of Willimantic, Conn., has arrived at the Raynes cottage.

Mrs. Frank Call of North Berwick is the guest of Mr. and Mrs. F. W. Dorr.

FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save Your Hair! Get a 25 cent Bottle of Danderine Right Now—
Also Stops Itching Scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; or dandruff—that awful scourge.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp which is not remedied causes the hair roots to shrivel, loosen and die—then the hair falls out fast! A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Danderine from any drug store, or toilet counter and after the first application your hair will take on that life, lustre, and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use when you will actually see a lot of fine downy hair—new hair—growing all over the scalp.

GIRLS' CLUB NOTES

The first of the series of Opera Talks by Mr. Haverhill Hubbard with musical illustrations by Mr. Floyd M. Baxter will be given in Association Hall at 8 o'clock on Wednesday evening, November 6th. The talk will be on "Louise." Tickets may be procured from club members.

The second Opera Talk by the same persons will be given November 19th on "Tales of Hoffman."

The third, and last will be given December 3rd, on "Mamma Yanna."

These opera talks seem to be the most popular attraction among women's clubs and associations throughout the country. Messrs. Hubbard and Baxter are members of the Boston Opera Company and come well recommended.

Last evening there were 63 girls in attendance and nineteen new members joined. Sixty girls have become members since the club opened on October 2nd, which is unusually good.

The neat sum of \$20 was realized from the baked bean supper on Saturday night.

Miss Thompson conducts the dress-making class this evening.

KEARSARGE LODGE, N. E. O. P.

Kearsarge Lodge gave a Halloween Party, that was enjoyed by its officers, members, and a few invited guests. After the regular lodge meeting the guests were admitted to the rooms and enjoyed a very pleasant social hour. Several games were played.

Lunch was served to all by a committee who had charge of the entertainment.

C. W. G. was there with his thirteen black cats. The tables were decorated with black and yellow. Everyone seemed to be enjoying themselves, noticeably those who participated in the apple biting contest. The event closed at a late hour, all attesting to an evening of real enjoyment.

Look for our next in about two weeks. The members of the lodge not present missed something. Wonder what they will miss November 11th?

WHY GIRLS LEAVE HOME

Interesting Two-Reel Feature
to Be Shown at Portsmouth
Theatre on Wednesday.

This is no doubt the best two reel comedy that has been seen for a long time, and will be shown at the Portsmouth Theatre on Wednesday only.

The story hinges about a minister, who receives a pamphlet announcing the melodrama "Why Girls Leave Home," to be produced at the local theatre. Stirred by the danger to his flock by so pernicious an influence, he prepares a vigorous sermon against the play. In order to make his sermon particularly apt, he decides he must see the play himself, so he steals secretly from home on the night of the performance. His daughter, stenographer and cook arrive at the same conclusion and also go to the performance with their respective young men. The simultaneous home-coming of these seven people after the play, produces an extremely amusing situation which is culminated by the arrival on an usher with the minister's coat.

The melodrama which the minister sees, is a real play. In fact, too real. You see the villain holds the mortgage over the old homestead and loves the honest farmer's beautiful daughter—but why go on? Why harrow you with this fearful story of misery and hate?

The hero is poor, but honest. The snow is falling softly on the street.

At least some of it is falling on the street. Most of it is falling on the heroine.

The heroine is weeping. She is generally weeping. This time she is weeping because she is alone in the great city and because the snow is falling on her.

She throws herself into the river (We know it is a river, because a little while after she has thrown herself in we see a splash.) That proves there is water in the river.

The hero saves her. He has to. (If he didn't he would spoil the rest of the show.)

After that the villain and his sinister band enter the old homestead and steal the child.

But "Not so fast Reginald Ravensstone!" and with a graceful gesture, Blackless Pete threw aside his false beard, disclosing the well known features of the Hero!

At The Portsmouth Theatre, Wednesday Only

HAVE GOOD TIME AT DOVER POINT

Borax Club Holds Its First
Annual Banquet and
Entertainment.

The first Annual Gathering of the Borax Club was held on Monday night at Hilton Hall, Dover Point. The club recently organized, and its initial assembly was one to be remembered.

It was in the form of a bachelor banquet with the following entertainment program on the side:

Introductory Frank P. Gear
Overture Entire Company
Speech Timothy. Conner
Song George Snow
Song Harry McDermott
Remarks William Calise
Vocal Duet Barney Featherstone, E. P. Gear,
Buck and Wing Lyman Scott
Song Entire Company
Quartette Trueman, Snow, Gear, Calise
Tone Harvey Hill
Intermission

Song Edward Dugan
French Stories Archie Beatty
A Little Bull Captain Reed
Song Walter Leach
Toast James Costa
Song William Langdon
Recitation Gordon Jameson
Song Entire Company, Farewell
Closing Speech Mr. Harrigan

Landlord Harrigan gave the new organization a warm welcome and the spread was simply excellent.

The talent had a little on some of the classy vaudeville that is on the circuit and the local actors will be in great demand in the future.

THE P. H. S.

List of Those Who Will Have
Charge of New High
School Paper.

The name of the new paper to be published by the members of the upper classes of the Portsmouth High School will be The P. H. S. The directors have selected the following staff: Miss Muriel Retchford, editor in chief; Wilfred Hewitt, assistant editor in chief; Lemuel Pope, managing editor; Miss Martha Newton, assistant managing editor; Miss Alice Griffin, graduate editor; Clayton Murgidge, athletic

editor; Doris Beane, reporter for class of 1917; Charles Parsons, reporter for class of 1916; Frances Parker, reporter for class of 1915 and Brandon Wright, reporter for class of 1914.

KITTERY

Breezy Items From the Village
Across the River.

Kittery Correspondent's telephone 778-M; P. O. Box 303.

Supreme Representative John Maxwell of Livermore Falls, Me., will be in town tonight on a visit of inspection to Constellation Lodge, No. 88, Knights of Pythias. The rank of Page will be conferred on a class of candidates, after which there will be a banquet and social hour.

Mr. and Mrs. Frank Clough and daughter, Miss Marion, of Somerville, Mass., have been called to town by the death of the former's mother, Mrs. Mary Eleanor Clough, of the Intervene, Mass. William Perkins of Cambridge, Mass., the guest of her grandmother, Mrs. Robert Newson of the Intervene, Mrs. Almedia Stover has closed her summer home on Pierson street and today went to her daughter's home in Roxbury. She was accompanied by her daughter and husband, Mr. and Mrs. J. Clifford Simpson, who motored here to pass the week-end.

Mrs. Ida Marshall, of Government street passed yesterday and today in York.

Mrs. John Ball of Lynn, Mass., arrived in town Monday for a visit with Mr. and Mrs. Asher Damon of Government street.

Mr. William H. Morton of Portsmouth and Mrs. Fannie Zahn of Portsmouth, daughter of Mr. and Mrs. William Christensen of Kittery, were united in marriage on Saturday by Rev. Percy Warren Cuswell of the Court street Christian church.

Mr. Henry Habak who has been passing a week with his wife at the home of her father, Mr. George Damon, went to Haverhill, Mass., on Monday to resume his duties.

Mrs. James R. Philbrick will entertain the Ladies' Sewing Circle of the Second Christian church on Thursday afternoon.

Mr. Charles Bedell of North Kittery was taken to the Portsmouth hospital Monday morning for an operation for appendicitis.

Miss Bertha Newcomb of the Wentworth school passed the week-end at her home in West Scarborough, Me., and also took Monday off, for "visiting day."

Mr. and Mrs. Frank E. Darnell of Central street are entertaining the former's sister, Mrs. Hattie Buzzell of Haverhill, Mass.

York Rehearsal Lodge has set November 18 for the date of its sale and dance.

A reception was held at the pleasant home of Mrs. Lydia A. Berry at the Intervene on Wednesday evening to Mr. and Mrs. Harry Wallis, who were recently married. That they are popular and have a host of friends is proved by the number present and the value of the gifts, conspicuous among them being a beautiful clock. The reception room was beautifully and effectively decorated with flowers, the work of Mrs. Berry, Mrs. Charles Woods and Miss Mabel Moore, principal of the Austin grammar school, and who presided at the piano, playing a wedding march as the company formed in procession to be greeted by the bride and groom, who stood under an arch of flowers. After this was concluded most delicious cake and tea cream was served after which music and games were in order. A most delightful evening was passed.

Monday and Tuesday
The Battle at Fort Laramie—Kalem
A stirring story of frontiers days in two parts. How the lives of a young army surgeon and the girl he loves are tangled in the warfare of two Indian tribes. After the massacre at the army post it is a faithful savage who leads the white girl to safety and then outwits his tribesmen to bring about the young doctor's escape with her. Flashing action throughout.

ACT—Jack Hale Comedian.
Pathé's Weekly

WEDNESDAY ONLY: "Why Girls Leave Home"—Edison Comedy—Two Parts.

MISS FOOTE ACTING CHIEF
Miss Gertrude Foote of the Central Telephone Exchange is temporarily filling the position of chief operator.

MURPHY DENIES SULZER CHARGES

Says Only Man Responsible
for Downfall Is
Himself.

New York, Oct. 27.—Charles F. Murphy gave out a long statement tonight in reply to the charges recently made by William Sulzer. Of the accusations uttered by Sulzer in his campaign speeches and in newspapers, all but one are denied by the Tammany Hall leader. The exception referred to the \$25,000 campaign contribution by Judge Beardsley.

Sulzer said he rejected this contribution upon learning that it came from Anthony N. Brady and that the money subsequently went to Murphy, who he declared had made no accounting of it to Mr. Brady the following day. Mr. Brady died in London last spring, several months after the incidents mentioned by Murphy and Sulzer.

Murphy in his statements stated that Sulzer did not take his charges before the court which impeached him.

"Why was Mr. Sulzer afraid to face the court and there make his statements under oath on the witness stand?" demanded Murphy. "I was willing to appear. He declined to appear. Mr. Sulzer tried to arouse prejudice by publicly asserting that the solemn verdict rendered by the highest court in the state was due to my influence. The fact is that the only man responsible for the disgrace and downfall of Governor Sulzer is William Sulzer himself."

Murphy denied categorically charges that he offered to pay off Sulzer's debts; that he met Sulzer at specified times alleged by Sulzer; that he suggested certain men for heads of state departments; that he demanded pledges regarding legislation; that he sent a threat to Sulzer regarding an appointment of highway commissioner for James E. Gaffney and that it would be "Gaffney or war"; that he attempted to influence Sulzer in the matter of appointments to judicial positions; that he threatened to disgrace Sulzer and wreck his administration; that Edward J. McCall the Tammany nominee for mayor ever acted as his emissary to Sulzer; that he prevented the legislature from making appropriations of the usual contingency fund; that he ever told Sulzer that he would stand by Stillwell, former state senator, now in Sing Sing, for accepting a bribe to expedite state legislation; that he threatened Sulzer with impeachment if Sulzer did not call off J. A. Hennessy, Sulzer's graft investigator; that he met with advisers and decided on Sulzer's removal from office and that he ever received the \$10,000 Sulzer said he received as campaign contribution from Allan A. Ryan and sent to Murphy.

PASTOR ENTERTAINS.
The Officers and Teachers of
the North Church Sunday
School the Guests.

Rev. L. H. Thayer, D. D., entertained the officers and teachers of the Sunday school at his home on State street Monday evening with twenty-six in attendance. It was the annual conference of officers and teachers, and plans for the coming year's work were discussed. Following the business session, was a social hour, and light refreshments were served.

Mr. Oscar Laighton, the pioneer hotel man at the Isles of Shoals, has closed the new summer cottage at Appledore and come to Portsmouth to remain until about November 8, when with his cousin, Mrs. Abbie (Laighton) Johnson of Austin street, both start south to pass the winter. They will first go to Savannah, Ga., and then to St. Augustine, Fla., where they will remain until May 1.

U. S. DOES NOT SEEK TO GAIN MORE TERRITORY

President Wilson Warns Europe That Material Interests Will Not Be Allowed to Interfere With Governments.

Mobile, Ala., Oct. 27. President Wilson announced to the world today that the governing matter of the United States in its relationship with the countries of this hemisphere would be "morality and not expediency."

"I want to take this occasion to say," he declared, "that the United States will not again seek to secure one additional foot of territory by conquest."

The President, in a speech before the Southern Commercial Congress, delivered a veiled attack on what he termed "the material interests" that had influenced the foreign policy of some governments in the relation with the Nations of Latin America.

Though Mr. Wilson did not mention Mexico as the afflicted country, he devoted his entire speech to a description of the degrading influence which foreign concessions had had upon the internal affairs of some of the Latin-American countries.

With the Mexican situation uppermost in the President's mind at this time, his address was interpreted as an arraignment of those financial influences which it had been charged have secured, in some cases, recognition for the Huerta Government.

The President declared that it would be the duty of the United States to make the Nations of this hemisphere "in an emancipation from 'the material interests of other Nations,' so that they might enjoy constitutional liberty unrestricted. The President spoke extemporaneously.

Future to Be Different.

"I came," he said, "not to speak for the South because the South has the gift of speaking for herself. I came here because I would speak of our present and prospective relations with our neighbors to the south. The future is going to be very different from the past. Those states lying to the south which have always been our neighbors will be drawn closer to each other by common ties of understanding, interests and sympathy."

monotimes separates them; but sympathy and understanding do bind them together.

"You hear of concessions to foreign capital in the United States. They don't hear of concessions to foreign capital in the United States. They are not granted concessions. They are invited to make investments. It is an invitation not a privilege.

"States that are obliged to grant concessions are in the condition that foreign interests are apt to dominate their domestic affairs. Such a condition of affairs is apt to become intolerable, and it is emancipation from this inevitable subordination which we deem it our duty to assist in.

"Their self-respect, their achievements in spite of these difficulties deserve nothing but the admiration and applause of the world. I rejoice in nothing so much that they will be emancipated, and we ought to be the first in taking part in assisting in that emancipation."

Relations to Be Closer.

The President digressed to point out that the Department of State recently had "tried to serve in that wise," but mentioned no specific instances.

"In the future," he continued, "the Nations to the south of us will draw closer and closer to us because of those circumstances of which I am speaking. We must prove ourselves their friends and champions on terms of equality and honor. We can't be fast friends on any other terms than those of equality.

"And we must show ourselves friends by comprehending their interests, whether they square with our interests or not. It is a very perilous thing to determine a foreign policy in terms of material interests. It is indeed a degrading thing.

"The development of constitutional liberty and world human rights, the maintenance of National integrity, as against material interests—that is our creed. I want to take this occasion to say, too, that the United States will not again seek to secure one additional foot of territory by conquest. It will devote herself to showing an honest and fruitful use of the territory she has, and she must regard it as one of the duties of friendship to see that from no quarter are material interests made superior to human liberty and National comity.

"I say this merely to fix what our real relationship should be. It is a relationship of a family of mankind devoted to the relations from which human liberty springs. We have seen material interests threaten constitutional liberty in America, so we know how to sympathize. I would rather belong to a poor Nation that is free than a rich Nation which has ceased to love freedom.

"Morality and not expediency is the thing that must guide us, and we must never condone iniquity."

The President's speech was constantly interrupted by applause. He rode through crowded streets bowing and nodding to cheering throngs.

RETURNS STILL LACKING

Mexico City, Oct. 27.—The returns of yesterday's elections may possibly be known within a week, but it is more likely that a fortnight will elapse before the result is placed before the public.

Not even a prognostication as to who was placed at the top of the poll can be made at the present moment, since in many cases the returns are lacking, owing to the faulty communications with various sections of the republic.

In the Federal capital itself the result may be determined within a day or two but even this is not certain. Telegrams received today by the department of the Interior showed that the elections at Chihuahua and Toluca passed off in an orderly manner but that a similar light vote was recorded there as in other places.

HUERTA IN THE LEAD.

Vera Cruz, Mexico, Oct. 27.—Provisional President Victoriano Huerta obtained 1500 of the 2000 votes cast in Vera Cruz at yesterday's election, according to the official returns.

Gen. Felix Diaz polled 300 votes and the remaining 200 were scattered among the other candidates.

IS BEST TO BE TRUTHFUL

Certain Cleveland Drummer Decides That Lying Doesn't Pay in His Business.

"In the long run—in my business at any rate," remarked a Cleveland traveling man, "it seems to be just as well to tell the truth. I never forgot an incident of my first trip on the road. One of the first towns I made was Franklin, down in the southern part of this state. It was marked on the map and on the folder in fairly good sized type, and I took it for granted that Franklin was a good deal of a place.

"So I walked up the street till I came to a dry goods store—dry goods being my line then—and I engaged the proprietor in conversation.

"Mr. Smith," I began, "there is another party here in town that's extremely anxious to get hold of our line, but I've heard of you being a thoroughly enterprising merchant, and I'm going to give you a chance to take of these goods if you are interested. You shall have first choice and if your order is one that will justify selling to you exclusively in this city I shall not go to see your competitor at all."

Throughout all this talk I was giving him the kept looking at me in a funny way, but without any particular change of expression.

"You say my competitor is anxious to take on the line," he said at last. "Yes indeed, he's been writing in

A SCENE IN J. HARTLEY MANN'S DELIGHTFUL COMEDY "MY HEART" OLIVER MOROSCO'S GREATEST NEW YORK SUCCESS. PORTSMOUTH THEATRE THURSDAY, OCT. 30.

and trying his best to tie up with us." "Then, replied my prospective customer, 'you'd better go and talk to him. And by the way when you find him I wish you'd come back here, and let me know where his place is. I was under the impression until now that there wasn't any other dry goods store in town.'—Cleveland Plain Dealer.

IF KIDNEYS AND BLADDER BOTHER

Take a Glass of Salts to Flush Out Your Kidneys and Neutralize Irritating Acids

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes some times with a scalding sensation and is very profuse; again there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying, and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Salt Salts from your pharmacist and take a spoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Just Salts is inexpensive, harmless, and is made from the acids of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Just Salts is splendid for the kidneys and causes no bad effects whatever.

Here you have a pleasant, effective, uric acid-water drink, which quickly relieves bladder trouble.

SAYS MOTHERS NEGLECT HOMES

Dean Brown of Yale Divinity School Blames Them for Social Diversions.

Kansas City, Oct. 26.—The dream of the Congregational church is the unity of the church of Jesus Christ. The Rev. Oliver Huckell of Baltimore thus defined the church's position in an address this afternoon in connection with the national council of the church. Prominent leaders occupied pulpits today and spoke on various subjects.

The Rev. Charles E. Jefferson of New York City declared America has four dragons to meet and conquer, the first of which is greed.

Mothers of the nation should devote less time to social diversion and more to the training of their sons and daughters, declared Dean Charles R. Brown of the Yale Divinity School.

The Rev. Carl S. Patton of Columbia O., deplored the tendency of ministers to discuss from the pulpit and in the

press the alleged decadence of the church.

The Rev. Ernest B. Allen of Toledo asked a campaign for bringing young boys who are kept from attending public school through poverty or misfortune, into the Sunday schools.

Secretary Henry A. Atkinson of Chicago addressed a joint meeting of church leaders and the Industrial Council at the Labor Temple defining the church's attitude toward labor.

"The wisest method of church unity," said Dr. Huckell "is consolidation—organic unity on terms of equality with the preservation of the valuable points in each community allowing all desired diversity in worship and work. Such a consolidation would lead to a great national church—the United Church of the United States, a part of the United Church throughout the world."

Dean Brown said that there were two main sources of supply for spiritual leadership—the Christian home and the Christian College. "I fear that in this hurried, restless life of ours, the first named source is not being adequately maintained," he continued.

"There are homes nominally Christian where the mother finds time for all manner of social diversion, but never from month's end to month's end devotes one hour to the high task of teaching her children the truths of that Book or of lifting up their spiritual need in prayer to God."

SUSPECTED OF INCENDIARISM

Strangers Seen Driving Away Just Before Building Is Discovered on Fire.

Pittsburgh, Oct. 26.—J. R. Buck of Sterling, of the firm of Buck Bros., came to Pittsburgh today and reported to the police that his building in West Sterling was destroyed by fire on the night. The building was used for storage, and the contents, which included a large amount of material and finished product went up in the flames.

He said he was satisfied that the fire was incendiary. Mr. Buck who lives in Sterling Center, some distance from the building said that two men who talked in a foreign tongue were seen driving away from the building just before the fire started. The men were traced in the direction of this city. Mr. Buck said that he was suspicious that the men had something to do with setting the fire. Inspector Mahler was assigned to look for the men. He found that a wagon was stolen from the barn of K. M. Sprague or Ashmunham Saturday night. The wagon and horse seen near the fire uncovered the description of two stolen from the Sprague barn. The police were furnished with a description of the two men.

WILL OBSERVE MEN'S NIGHT

On Sunday evening, Rev. Percy Warren Caswell is planning to hold an interesting service. It will be Men's Night, and the Sunday school and members of the Onward Class will attend in a body and occupy the front of the church. The male quartette will render several selections. Rev. Mr. Caswell will report on the Sunday School Convention at Manchester, which he attended all last week.

For a mild, easy action of the bowels, try Doan's Regulants, a moderate laxative, 50c at all drug stores.

BATTLESHIP TEXAS MAKES CONTRACT REQUIREMENTS

Rockland, Me., Oct. 27.—The repairing of the engine trouble which interrupted her standardization trial on Thursday having been completed late last night, the superdreadnought Texas, the most powerful battleship afloat, left the anchorage early today to resume her builders' trials.

The trials were completed today with results entirely satisfactory to the builders and Government officials. The fastest run over the mile course was made at the rate of 22.28 knots, exceeding by more than 1 1/4 knots the speed required by the contract.

In completing the standardization trial the Texas made three runs over the mile course at 21-knot speed and five at the best speed attainable. It is expected the battleship will go to sea immediately for the four-hour official acceptance test, during which she must average better than 21 knots to meet the contract requirements.

The other trials will be held at sea while the warship is on her way back to Newport News.

The average of the five fastest runs upon which the standardization data is based was 21.128 knots and the propeller revolutions averaged 125.48 per minute. The trials indicated the contract speed of 21 knots can be obtained by an average of 123 propeller revolutions per minute. The maximum amount of horsepower developed was 28,100. The ship's displacement during the runs was 27,600 tons. The port engine worked to entire satisfaction.

The battleship went on to the course at 9:45 a. m., after having a three-hour run to test the efficiency and durability of the engine's repairs, and made nine runs in all. The anchor tests followed and were successful.

The boilers and engine rooms are being cleaned, preparatory to leaving at 5 this afternoon for the four-hour acceptance run, during which the ship must average at least 21 knots an hour. A short sail probably will be made at Provincetown before the official acceptance trials are held.

RATHER EXPENSIVE

New York, Oct. 27.—The largest single seizure the customs inspectors have made since the new regulations prohibiting the importation of silverware went into effect is on record at the customs house today as that of plumes valued at \$600 taken from Miss Edna McLaughlin, daughter of a former police inspector here, who arrived yesterday from Europe. The young woman had frankly declared the fine feathers as part of her apparel, which was valued in all at \$8000, and was shocked when she learned that regardless of her declaration the inspectors must seize the grottes. She protested that she had bought the plumes in this country, but learned to her dismay that only 24 hours before her arrival an order had been issued for the seizure of all such feathers whether originally purchased in this country or abroad.

A REAL DETECTIVE STORY.

The trunk of a woman's body was found on the banks of the Hudson River. The woman had been murdered. Her identity was unguessed. The sole clue to the crime was a pillow case wrapping with peculiar markings. The mystery, baffling to the extreme, was solved through clever detective work. The detective in question was Inspector Joseph A. Huron of the New York police department. His story will be told graphically in the 24-page illustrated Magazine of next Sunday's New York World. Miss this great story and you will miss much.

COMFORTING WORDS

Many a Portsmouth Household Will Find Them So

To have the pains and aches of a bad back removed, to be entirely free from annoying, dangerous, urinary disorders, is enough to make and kidney sufferer grateful. The following advice of one who has suffered will prove comforting words to hundreds of Portsmouth readers.

Mrs. John M. Smart, 122 Gates St., Portsmouth, N. H., says: "Eight or nine years ago I began to suffer from pains in the small of my back which at times changed to a dull, grinding ache and if I overexerted my suffering was intensified. I felt tired nearly all the time and had but little energy. Having reason to believe that my kidneys were disordered, I began trying various remedies, but without success, until I procured Doan's Kidney Pills at Philbrick's Pharmacy. The contents of two boxes improved my condition in every way."

For sale by all dealers. Price 80 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

LET THE HERALD SOLVE YOUR "AD" PROBLEM

How many times do your salesmen fail to do business because the way wasn't prepared for them with properly placed advertising?

It's the newspaper that must win a hearing today for your product. Advertising is necessary in making sales because purchasers have to be first interested in your goods—have to be first convinced that you really have something worth while to offer them—before they buy.

No selling plan can be effective, and no sales force can bring home the bacon without direct advertising. It's the very life-blood of business.

If you wish us to criticize your advertising we shall be pleased to give you our opinion without charge. We write the right ads to make advertising good advertising.

RAILROAD ISSUES RIGID ORDERS

Disinterested Employees Will be Classed as Undesirables

An order has been posted on the Portland division of the Boston and Maine which has caused the men in the train service to sit up and take notice.

The notice touches on the men logging out and not being on hand in season to cover the trains they are assigned to. The officials claim in the bulletin that men being late for work has got to be chronic and in the future when a man fails to show up for work twice without a good excuse, he will be classed as an undesirable and a new man put in his place.

The company is reluctant in posting such a rigid order but states that it was absolutely necessary as the result of lack of interest among the men.

ITEMS OF INTEREST TO NAVY YARD EMPLOYEES

Naval Orders

Commander R. McClean detached the Florida to navy department, Wash.

Commander R. D. Hushon, detached the Idaho to the Florida as executive officer.

Lieut. J. Rogers detached the Nebraska to the Daduach.

Lieut. R. F. Church to navy yard, Washington, D. C.

Ensign W. H. Osgood, detached the Virginia to temporary duty the Constellation.

Ensign P. K. Elder detached the Connecticut to temporary duty the Constellation.

Ensign E. Montgomery detached the Virginia to temporary duty the Constellation.

Ensigns W. H. O'Brien and S. S. Gillette detached the Hopkins to the Stewart.

Lieutenant N. McArthur, detached receiving ship at Mare Island to home.

Gunner G. H. Sullivan detached the New Jersey to temporary duty navy yard, New York.

Hit Solid Rock.

Steam and Trestle, the firm constructing the new highway and railroad bridge, have struck rock bottom thirty feet below low water for the center pier of the bridge.

Freight Good Prices.

The recent sale of condemned stores at the yard is said to have been one of the best which the government has conducted in years.

Will Command Eagle.

Lieut. A. K. Shoup has been assigned to command the U. S. S. Eagle, replacing Lieut. C. H. Bullock.

Back From Bath.

Naval Constructor Adams has arrived home after a period of special duty at the Bath Iron Works.

Uncas Sails for New York.

On receipt of telegraphic orders received on Monday, the tug Uncas sailed for New York at 7 o'clock this morning.

Wiremen or Electricians.

Wiremen or electricians who have knowledge of the navy interior communicating system are wanted by the machinery division at the yard.

Shift the Vermont.

The battleship Vermont has been temporarily transferred from the Second to the Fourth division, Atlantic fleet. She will remain assigned to the Fourth division until her return from Europe about Dec. 15, when she will rejoin the Second division.

Going to Asiatic Fleet.

The cruiser Galveston has been assigned to duty with the Asiatic fleet.

Coming to the Eagle.

Ensign Osgood has been detached from the U. S. S. Constellation at Newport and ordered to the U. S. S. Eagle at this yard.

The Herald Hears

That one of the regular fire department wants to appear before the footlights.

That he believes that the gasp can make a hit on the stage.

That he don't say whether they are likely to appear in a fire fighting scene or blackface work.

That another question is, "will the veteran firemen be asked to play any heavy part?"

That there is much speculation as to who will be the Progressive candidate for mayor.

That the drivers of the city rubbish carts are not modern Sampsons.

That they are not required to lift rocks and granite in their collections.

That they would like to see more paper tied up when the collections are made.

That the board of public works have appealed long enough on this matter.

That half the paper flying about the streets is due to people who ignore this reasonable request.

That the scales of weights and measures is now making his rounds on foot.

That the job is not as easy as it was.

That the movement for an agricultural fair for this city appears to have died a natural death.

That the Whaleback fog whistle and the groaner in the harbor have

For Monday and Tuesday THE DAY OF JUDGMENT—Three Reels.

A powerful tale of the devastation caused by a swifter in launching a huge gold mine. This powerful "Dolan Feature" is the story of a banker who is induced to issue stock in a gold mine, although he has received positive evidence from an expert engineer as to that purpose. That the mine is worthless. There are many thrilling situations in this most exciting feature which depicts so truly the terrors of dealing with unscrupulous swindlers.

For Her Brother's Sake—Lubin

An excellent melodrama of the southwest, strong and picturesque. The Conscience Fund—Two Reels.

A confidential department of our government, known as the "Conscience Fund" is always ready to receive money from people who have defrauded it and wish, for their own peace of mind, to refund openly or surreptitiously. In this case a noted detective, "The Man On the Street," unravels against his own father, a trust magnate, who has consistently cheated the Government. A real feature with clear-out action following a thread of breathless interest.

The Counterfeiters' Fate—Lubin

A story of pluck, nerve, and courage, winning against overwhelming odds.

Miss Grace Maxwell sings "Dance of Mother" and "Stick to Your Mother Mary" in a most pleasing manner.

Matinee 2:30, Evening 7:00, Saturday Evening 8:30.

SPECIAL FEATURE for Wednesday and Thursday: "THE MYSTERY OF THE SILVER SKULL"—A Two Reel Vitaphone Subject featuring Mr. Maurice Costello and Miss Mary Maurice Costello.

That the job is not as easy as it was.

That the movement for an agricultural fair for this city appears to have died a natural death.

That the Whaleback fog whistle and the groaner in the harbor have

THE HERALD HEARS

That one of the regular fire department wants to appear before the footlights.

That he believes that the gasp can make a hit on the stage.

That he don't say whether they are likely to appear in a fire fighting scene or blackface work.

That another question is, "will the veteran firemen be asked to play any heavy part?"

That there is much speculation as to who will be the Progressive candidate for mayor.

That the drivers of the city rubbish carts are not modern Sampsons.

That they are not required to lift rocks and granite in their collections.

That they would like to see more paper tied up when the collections are made.

That the board of public works have appealed long enough on this matter.

That half the paper flying about the streets is due to people who ignore this reasonable request.

That the scales of weights and measures is now making his rounds on foot.

That the job is not as easy as it was.

That the movement for an agricultural fair for this city appears to have died a natural death.

That the Whaleback fog whistle and the groaner in the harbor have

been pretty noisy the past three weeks.

That Dan Cupid did not wing as many of the 9 o'clock club as was expected this month.

That a small army of stray cats are running loose in this city.

That there has been no report from the wild man in the Kittery woods of late.

That so far October has given us only four good days.

That the Franklin Pierce Veteran Firemen's Association has captured nearly \$1,300 in prize money since the organization eight years ago.

That they are waiting to take some more from those South Berwick boys if they ever come across with that challenge.

That the red shirts here believe that the frost has affected the feet of the Berwick men.

That if the Berwick or Somersworth handball artists have anything that looks like \$150 or \$200 they are in line to do business with the Franklin Pierce boys.

That a local truckman is some swimmer, but he didn't expect the bath he got in Seavey's Creek on Sunday last.

That the next time he indulges in smelt fishing it will be done from the shore or off a bridge.

That another one of the party down that way, on the same day, is not saying much since he called for a gun to shoot a bird in the water which proved to be only floating kelp.

That the three young men who are practicing such close harmony in their vocal practice in the Newington woods are too far away to please their admirers.

That their lady friends, especially, would like to hear them some night on Woodbury avenue.

That the boys wonder why these rehearsals are pulled off among the pines and at night.

That you will have no trouble to get luck coming your way if it is bad luck.

That a well known resident of Elliot has them all going by his new discovery as a hair restorer.

That he says nothing will do the trick every time.

That a couple recently married in California after 22 years of courtship.

That Dan Cupid must have had an awful job on that pair.

That the groom must have found it an expensive courtship if he was in any way inclined to blow himself.

That it is rumored that when the New Castle fire department is reorganized that the chief will give exhibitions of up-to-date fire fighting in all the surrounding towns.

That a millionaire named Macy is a candidate for overseer of the poor in Uxbridge, N. Y.

That he may want to let loose on some of his personal wealth.

That that fish story is still going the rounds on Noble's Island.

That the two residents of the island will claim that 800 pounds of eels is nothing extra for a catch in one night.

That old time fishermen along the river are tipping their hats to these gents.

That they have also handed over the blue ribbon to the eel experts.

That they would like to know just where so many eels school at one time.

That Mack and the painter certainly have them all frazzled with the hook and line.

That women are shortly to wear suspenders, so the latest in fashion says.

That the only way that a man can square himself with wifery is to prepare to sew on the buttons.

DANCING CLASS

Thomas E. Stanton, a dancing teacher is about to open a dancing class at Annex Hall, Portsmouth, Friday evening, Nov. 7. Correct dancing will be taught, and those who wish to learn dancing in that form will no doubt take advantage of this opportunity. For further particulars, notice window cards. Mr. Stanton is a member of the International Association, Masters of Dancing, and comes highly recommended.

This evening the members of Canton Center, No. 12 Patriarchs Militant will entertain the members of Strawberry Bank Encampment, I. O. O. F.

YOUNG MEN'S SUITS

The young man who wants the correct "fines" in his suit has only to look at our fall and winter offerings to find his ideas more than realized. Young men's suits from the tailor shops of such houses as The Stein-Bloch Co. and B. Kuppenheimer & Co. leave nothing further to be said. Their styles are authoritative—fabrics as well as models.
